These carriers intend to utilize a system based E911 solution. No final decision has been reached on the vendors, but the ones contacted include Grayson, Cell-Lock, Inc., and Trueposition. The carriers intend to comply with the FCC's system-based solution schedule, i.e., they intend to provide E911 service to 50% of callers within six months of a PSAP request and 100% within 18 months of a PSAP request, provided that the necessary equipment/software is available and installed. The system solution will not require replacement and/or upgrade of existing handsets. At this time it is not known what hardware/

software changes will be required to permit the PSAP interface. Some states, such as the Iowa Emergency Management Division, E911 Program Manager, will coordinate the interface with the PSAP and carriers will install trunks as directed. Other states, such as Wisconsin, have not yet finalized the logistics related to PSAP implementation. The carriers intend to comply with the testing/ verification requirements of OET Bulletin No. 71 through field testing. Contact person responsible for this report:
